- ReactJS, NextJS, Redux, TypeScript, RSJX, Jenkins, Confluence, JIRA, Figma, HTML5, CSS3, SASS, JavaScript, Bootstrap, Tailwind, GitHub, GIT, SVG, AJAX, Fetch API, JSON, Visual Studio Code, Microsoft Office, Adobe Photoshop and AutoCAD

# PROFESSIONAL WORK EXPERIENCE

*July 4 2022 – PRESENT*
*Designation:*  Front-End Developer Engineer (React JS)
*Company:*      Innovations Group
*Location:*       Pasay City, Manila Philippines

*Job Description:*

- Design, develop and test HTML5, SASS/LESS, ANT design, React JS that meets accessibility and web browser standards for website. Used React-Router to run application into Single Page Application. Worked on using React JS components, Forms, Events, Keys, Routers, Animation, and Flux concepts. Worked with backend engineers to optimize existing API calls to create efficiencies by deprecating unneeded API calls. Extensively used Git for version controlling and regularly pushed the code to Gerrit. Used JIRA as the bug tracking system to track and maintain the history of bugs/issues on an everyday basis. Worked on an Agile (Scrum) Development Team to deliver regular updates to the business team and project managers.

*March 20, 2020 – June 17 2022*
*Designation:*  Front End Developer
*Company:*      Remal Assawahel Contracting & Maintenance Co.
*Location:*       Kingdom of Saudi Arabia

- Designing, developing and maintaining user-friendly and responsive web applications using HTML, CSS, and JavaScript. Collaborating with cross-functional teams, including designers, back-end developers, and project managers, to ensure the timely and effective delivery of projects. Translating complex design concepts into interactive and intuitive user experiences, using front-end technologies and libraries such as React JS. Implementing accessibility and security standards to ensure that all web applications meet relevant guidelines and regulations. Writing clean, well-documented, and maintainable code, and utilizing version control systems such as GIT to manage code repositories.

*August 8, 2019 – March 20, 2020*
*Designation:*  General Electrical Engineer
*Company:*      Remal Assawahel Contracting & Maintenance Co.
*Location:*       Kingdom of Saudi Arabia

- Responsible for the development and implementation of a comprehensive maintenance plan and for directing all maintenance staff activities through subordinate supervisors. Work includes reviewing capital program engineering plans and specifications for compliance with departmental design standards, goals and objectives and coordinating activities with project directors from the city's Capital Program Office. Contact with consultants, contractors and engineers is a significant aspect of the work. Work is performed under the direction of an administrative superior.
